To Whom It May Concern:

I am writing this letter of recommendation for Ms. Veronica Furtado Coborn. Veronica has been employed as the Area Manager for Latin America at Microbiologics for more than five years. In that time period, she has been able to build an extensive network of distributors throughout Mexico, South and Central America, as well as the Caribbean. Through that time period, her territory experienced double digit revenue gains on an annual basis.

Veronica is fluent in five languages which allowed her to effectively communicate with distributors and customers. She has also been instrumental in translating some of our key marketing and product information. She has acted within Microbiologics as a strong advocate for her customers and distributors.

In addition, Veronica initiated a unique and colorful monthly newsletter for her distributors that improved communication of company news and product information. This newsletter effectively focused on achievement, targets and sales goals. In conjunction with this newsletter, Veronica also developed key contests and awards to motivate her distributors and drive sales. These efforts came naturally to Veronica as she is a very motivated and goal driven person, herself.

Veronica is well recognized in microbiology circles and has been a strong and passionate proponent for Microbiologics, and our products. We wish her success in her next position.

Sincerely,

Robert White
Chairman of the Board
Microbiologics, Inc.
